itsgratien gratientuyishimire

I am an experienced software engineer who is passionate about solving problems that make the lives of people easier using technology. .

I have hands on experience (4 years) of developing web (FullStack) applications. my primary skills are Javascript, Typescript, React, NodeJS, HTML and CSS.

I am able to learn new skills, technologies and methodologies that may be required to join projects others are working on.

During my free time, I like to do sports (Jogging), riding a bicycle, listening to music, or playing basketball.
